WANT M'CLELLAN FOR PRESIDENT

If He Can Be Elected Governor of New York He Is the Man.

MADE AN EXCELLENT MAYOR

He Has Given the City a Good Administration-The Factions Must Get Together.

(From Our Regular Correspondent.) WASHINGTON, D. C., October 9.-Democratic politicians are pretty generally agreed that if the present many programme can be carried out, that is, reelecting McClellan mayor, and afterwards electing him Governor of New York State, he will be about the most feasible candidate the Democratic party could put up for the Presidency in 1908. The fact that he would be the candidate of Tammany Hall would not handleap him as it has handleapped other candidates in the past, for the that though elected Mayor of New York by that organization he has proceeded to give, the city an administration that has been acknowledged by very many of his political opponents to be about as good an administration as it has ever had. A Tammany candidate, he has been in no sense a Tammany mayor, but a mayor who has known only the welfare of the city.

Presidential Size.

Presidential Size.

These things are being discussed very freely by those who will have most to do with the nomination of the next Democratic candidate for President, and on every hand it seems to be conceded that Mayor McClellan has abundantly proven himself a man of Presidential size. The trend of the discussion on, the part of the nominee makers seems to be entirely favorable to McClellan, and it only remains for him to reach the gubernatorial chair in order to practically assure his nomination for the Presidency.

While there is plenty of timber on the Republican side, it must be conceded that on the Democratic side there is rather a dearth of such materal. Not at all that there are not many men in the party who would make acceptable presidents, but that they all seem to have some handleap or another as a candidate. It is this that is causing the eyes of prominent Democrats to be cast McClellanward. The great lesson of all the campalers of the past have been that New York is such an important factor in a Presidential race that to make sure of the Presidency itself.

Important Question.

Important Question.

All of the Democratic leaders realize this and it is therefore easy to infer why they are keeping their eyes on McClelian. "If he can carry the State of New York in a gubernatorial race, is it not fair to assume that he can carry it in a persidential campaign?" This is the question that Democrats who are looking shead are asking themselves and their friends, and the answer is nearly or quite always in the affirmative.

Political parties are always looking for men of known strength for their leaders. With even them at the helm there is always a great deal of uncertainty in a

With even them at the helm there is always a great deal of uncertainty in a campaign. But they render it as certain as such things can be made. It is this policy of all good politicians that is making the Democrats watch McClellan. The trite phrase, "As New York goes, so goes the Union," has before now become one of the most proverbial of American politics, and it is just now working on full time. And the way it will go if McClellan runs for Governowill be in line with the way it will go will go if McClellan runs for Governor will be in line with the way it will go if he afterwards is the nominee for the presidency. In this the Democrats will find the trying out race in the gubernatorial campaign a very valuable thing to them. It will determine whether McClellan ought to be nominated, and whether he is likely to be able to win if he is.

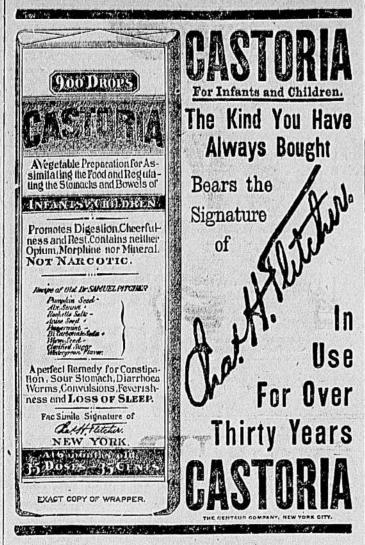

Test His Strength. I have talked with several men promi-nent in the councils of the party re-cently, and they are a unit in saying that if McClellan can carry New York State for the governorship, he is undoubtedly the man for the Democrats to nominate. the man for the Democrats to nominite, and they feel that the Democrats have reason to be thankful for such an opportunity to be able to test his strength, One of those with whom I talked is a member of the Democratle Executive Committee, and as broad-gauved man as there is in the party. He said:

"I believe that if McClollan is nominated and elected Governor of New York,

nated and elected Governor of New York, he will be the most available candidate the Democrats could name for the Presidency in 1908, 1fg has proved his qualifications for the Place, and if he can demonstrate his ability to carry New York State, he is likely to be the nominee, it looks now as if he could carry the State."

the State."

The only thing in the way of carrying out the programme mapped out is the feud that exists between Tammany and the up-State Democrats. Whether, for the good of the whole party, they can be induced to harmonize their differences and give the National Democracy opportunity to test its strength with McCiclian remains, to be seen. It is not saying too much to say that all of the national leaders are hoping that they fill, and before the time comes national leaders will likely appeal to them to do so in a spirit of party patriotism.

COTTON SUPPLY

The Amount Available Between September 1, 1905, and Same Date This Year.

TOTAL WAS 14,455,994 BALES

Annual Consumption Per Spindle Greater in the South Than in the North.

WASHINGTON, October 9 .- The Cen sus Bureau to-day issued a bulletin show ing the production and distribution of the cotton of the United States available be tween September 1, 1994, and September 1, 1905, to be 14,455,994 bales. Of this, 61 per cent, was exported, 50 per cent, was used in domestic consumption, leaving a surplus/of 9 per cent. The domestic consumption includes 26,776 bales destroyed fire. The exportation amounted to 8.831,929 bales, the domestic consumption 4,315,756, and the surplus 1,306,300. Of the total, 13,693,270 bales were included that of 1966. Of the quantity consumed in the United States, 2,138,829 bales were used in Northern and 2,140,151 in Southern mills. in the crop of 1994, and the remainder in

Cotton Imported.

In addition to the totals given, 124,469 bales of foreign cotton were imported into the United States during the year. The exportation for the year covered exceeded that of any previous twelve months by 1,14,452 bales, and they exceeded the average for the past ten years by 2,313,918 bales. New Orleans, with a total of 2,463,421 bales, held first rank as an exporting point, but was close pressed by Galveston, with 2,383,318 bales. Savannah, Ga., 181,290,989 bales, held third place. The value of the total export was \$464,599,293. The export of raw cotton was distributed in bales as follows:

To the United Kingdom, 4,643,999; Bel-In addition to the totals given, 124,469

was distributed in Dates as follows:

To the United Kingdom, 4,043,999; Belgium, 161,151; France, 857,103; Germany, 2,115,072; Italy, 556,029; Russia, 123,403; Srain, 289,688; other, 172,112; Japan, 324,668; British North America, 125,407; Mexico, 73,276; all other countries, 9,461.

Producing Spindles. Producing Spindles,

The total number of producing spindles in the United States is reported at 24,-077,524, of which 5,211,734 were in the South and 15,867,790 in the North. Notwithstanding the great difference in the number of spindles of the two sections, the consumption of cotton is practically the same. The annual consumption of cotton per spindle in the Northern mills is 67 pounds, compared with 124 in the South. The difference in the per spindle consumption indicates that the Northern mills are spinning yarns of very much greater fineness than those turned out by the Southern mills. The large out-

LD SORES AND UNDERMINE

Old Sores that refuse to heal are a constant THE HEALTH

Old Sores that refuse to heal are a constant THE HEALTH menace to health. They sap the vitality and undermine the constitution by draining the system of its very life fluids, and those afflicted with one of these ulcers grow despondent and almost desperate as one treatment after another fails. They patiently apply salves, washes, plasters, etc., but in spite of all these the sore refuses to heal and eats deeper into the surrounding flesh, destroying the tissues and growing to be a festering, inflamed and angry mass. The source of the trouble is in the blood. This vital fluid is filled with impurities and poisons which are constantly being discharged into the sore or ulcer, making it impossible for the place to heal. It will not do to depend on external applications for a cure, because they do not reach the real cause, and valuable time is lost experimenting with such treatment; the most they can do is keep the ulcer clean. Any sore that will not heal is dangerous, for the reason that it may have the deadly germs of Cancer behind it. A cure can be brought about only through a remedy that can change the quality of the blood, and this is what S. S. S. does. It goes to the very bottom of the trouble, drives out the poisons and germs with which it is filled, and purifies and builds up the entire circulation. By the use of S. S. S. the sore is supplied with new, rich blood which corrects the trouble, soon stops the discharge, and allows the place to heal naturally and permanently.

PURELY VEGETABLE. S. S. S. also reinvigorates the entire system, and where the constitution has been depleted or broken down it quickly builds it up and restores perfect health. Write for our special book on sores and ulcers, and any medical advice you are in need of; no charge for either. The SWIFT SPECIFIC CO., ATLANTA, GA.

of; no charge for either. THE SWIFT SPECIFIC CO., ATLANTA, GA.

put of the Southern mills this season has been mainly of heavy fabrics to supply a greatly increased demand from China

been mainly of heavy fabrics to supply a greatly increased demand from China and the Orient.

The report shows that in twenty-five years the production of the United States has increased from 5,755,359 to 13,-693,279 bales, the total consumption of cotton in this country has increased from 1,671,383 to 4,378,990 bales. Within the last five years the cotton consuming estimate of the Southern States have increased their consumption from 1,483,-711 to 2,140,151 bales. During these five years the Northern cotton consuming estimates have actually decreased their consumption by 16,935 bales, explained by these mills being engaged during this period in replacing old machinery by more modern. The world's obtton production for 1504, antering commercial channels was 18,641.855 bales, with a total consumption of 15,474,950 bales. This indicates a world's surplus of 2,556,579 bales. Of the total production 2,990,000 bales, were grown in the East Indies: 1,187,000 in Egypt, and the remainder in Brazil and other countries.

Accurate Information.

Accurate Information.

Owing to the sensitive character of the cotton market the report emphasized the importance of accurate information on the question, and adds.

"While there have been some refusals in both sections of the country to supply the data required by the law, the information has as a rule been cheerfully and promptly given; and when the totals are compared with the figures of the commercial movement, it is evident that the returns made to the Bureau of the Census have been remarkably accurate. In these cases, where manufacturers refused to give the desiration for such estimates received through reliable sources, have been included in the totals of this The report also says:

mares received that the totals of this report."

The report also says:

"Since the inauguration of the census reports on oction-graning, the cotton crop has been brought more completely within the nurview of the statistical methed that any other farm commodity. The total production of early year is now known, within a few thousand bales, as early as the following March. The progress of the crop can be traced, bale by bale, to the mille North and South and to the several foreign countries. It, will be a part of the purpose of these reports to learn what proportion of their purchase the mills have consumed and what the mills have consumed and what the mills have consumed and what the mills have consumed and cates. In time it is hoped that this exact knowledge can be extended ro as to include foreign countries. With this knowledge in their possession, the producer can himself determine what is a fair price for him to demand and the consumer what is a safe price for him to pay."

The biletin is the first to be published on the subject under the act passed by Congress last February.

MISSIONARY UNION.

Annual Meeting and Election of Officers. (Special to The Times-Dispatch.)

RADFORD, VA., October 9 .- The Wo man's Missionary Union of Montgomery Presbytery met here Wednesday and Thursday, with forty delegates in at-

The meeting was presided over by Mrs E. T. Burnett, of Roanoke, president of the Union. Mrs. William Ingles made a graceful speech of welcome, which was fittingly responded to by Mrs. Walker, of Blacksburg.

The following officers were re-elected The following officers were re-olocted for the coming year; President, Mrs. E. T. Burnett, of Roanoke; vice-president, Mrs. A. F. Hume, of Bedford; treasurer, Mrs. F. O. Thomas, of Bedford; trecording secretary, Miss Mary Fleming, of Lynchburg; corresponding secretary, Mrs. W. C. Campbell of Roanoke.
The next meeting will be held the first week in October, at the First church, Lynchburg.

Jess Martin Arrested.

(Special to The Times-Dispatch.)
WINSTON-SALEM, N. C., October 3.—
Jess Martin, a negro, was arrested here
to-day. He is wanted in Richmond, Va.,
for cutting a negro woman, with intent
to kill, in July, 1904. Chief Crutchfield
has notified the Richmond authorities,
and it is presumed an officer from that
city will be sent here this week after
him.

Richmonders in New York.

(Special to The Times-Dispatch.) NEW YORK, October 9.—Grenoble, Mrs. A. Cabell; York, J. L. Dean, G. B. Bull; Breslin, O. R. Brown; Holland, C. G. Fosher; Murray Hill, W. A. Bell.

Senator Plunkitt Ill.

NEW YORK. Oct. 3.—George Washington Plunkitt, the Tammany Hall man who went down to defeat at the late primaries as leader of the Fifteenth Assembly Illstrict, is at his home recovering from an operation for abscess of the peritoneum. His physicians say hopes are entertained that no fatal result will follow, but in a man of the former State senstors years an operation of the kind is always dangerous.

IF JUSTICE JOHN **GOES TO HEAVEN**

Young Man Gets Great Laugh On Man Behind the Bench.

NO WHITE FLOWER OF TRUTH

One John Declares That Peniten

tiary Bottom Is Not Very
Productive of Veracity.

"I'm going to make out like I believe that yarn that Gilbert Pollock told you to tell me this morning, and I'm going to let you—" began Justice John J. Crutch-fleid in Pollec Court yesterday morning, after Charles Griffin, an illiterate looking white man whose home is down in the country, had told a peculiar little incicountry, had told a peculiar little incident of a negro boy giving him a re- this head. volver to hold while the negro went arter booze with Griffin's money.

"Thank youse. When I git to heaven

if you are thar, I'll-" "Oh, wow, yelled Mr. Gibbons. "It the Judge is there! Hear that, Robins?" "My ears did not deceive me. The gonteman has laid particular emphass on the "if," as though he had some doubt about the Judge ever beholding St. Peter," answered the man who keeps the per door, closed.

Peter, inswered the man who keeps the pen door closed.

"Huh." was all the justice said.

"He means to express his gratification at your wise decision. I am satisfied that the boy is teiling the truth. My that the boy is teiling the truth. My clients always do. Look at this man! Did you not just hear him exclaim boldly his belief in reaching too golden gate at last," broke in Mr. Poliock, who had a string around the witness and was leading him on, on, on until the little story had been unraveled.

"Take that rope from off that man, and let him talk like he wants to, Mr. Poliock," said the Justice. "Ho don't look as though he is very bright, anyway, and that's why I am making believe like I swallow that yarn. Now toll me inonest-

as though he is very animal, any state that's why I am making believe like I swallow that yarn. Now tell me honestly," and the Justice fixed his gaze upon the prisoner, "didn't that lawyer tell you to give me than con?"

"He did talk to—" stammered he from

"Hold on there, I am your lawyer, and "fold on there. I am your taxyor, unless you don't have to answer such questions unless you wish to, and, of course, you don't want to, now do you?"

Mr. Pollock's voice was as soft as the buzzing of a bumble bee when he talked to his client.

"Go on and stay on. Back to the country

to his client.
"Go on and stay on. Back to the country and don't carry pistols again. And don't you take no more whiskey, and may the good Lord forsive you for being coerced into lying," said the justice as Griffin

No Truth Flourishes There.

No Truth Flourishes There.

An opening was made in the hallway and down the line came five negro women from the Bottom. "Charged with fighting? Have a good time down there Sunday?" shot out the court as the different shades of Africanism waddled around and tried to talk.

"I gui' tell you de truth, Mister Judge, Dats me all de time, for de truin," started one of the tribe, a dusky looking thing that wore a yellow skirt trimmed in turqoise and bright red colors. Her waist was a creation of some filmsy materials and against her ungibson neck was a wonderful holey gamp.

"Shut up!" roared the man who disposed of eight pages of a docket with greater rapidity than any other man in Richmond or in the State could have done. "Don't talk to me of the truth in Fenitentiary Bottom. It can't dwell there. The germ will wither and die as a plucked rose. Truth! Might as soon expect it from a lawyer as from one of you. Now, lemme give you a little advice. Just stop talking and it will be better for you. I have heard enough, and have written the fine down. It's \$1.50 each, and they are going fast. Step right around and purchase tickets from my friend, the sergeant."

"Three-seventy now," said the man who headles the money, and each and every one of that tribe from the Bottom had the cash.

Clara Bell Johnson disentangled herself from the throng in the cage and faced Sam Duck, a waddling negro, who had been smote alongside of his front facel.

Clara Bell Johnson disentangled herself from the throng in the cage and faced Sam Duck, a waddling negro, who had been smote alongside of his front jaw with a brick that Clara Bell hurled. Clara Bell was certain that Sam Duck had tried to duck her light out with a revolver, and she "des ducked in" and handed Duck a little swim around. She will tell her duckling troubles to a jury. Joe Jones and Henry Stewart, two negro men, shot crap, and each was assessed the regulation amount—\$3.20. Neither could raise the dough and back they went.

Tell Jury About It. Lella Coles, a sassiety freak from the Ward, was charged with stealing money from the person of an old man, and she will tell the jury about the theft.
Mr. P. L. Plateau was charged with

Bankers Gather.

Bankers Gather.

Washington is filling up with bankers, come to attend the annual session of the American Bankers' Association, which opens here to-morrow. The only banker from Virginia whe had registered at the headquarters of the association up on the tenth floor of the New Willard this afternoon was Mr. Caldwell Hardy, of Norfolk, one-time president of the association. He is accompanied by his wife and daughter, Miss Lucy. Mr. James R. Branch, the secretary, now of New York, but originally from Richmond, is in charge at headquarters. Mr. John P. Branch, the nestor of Richmond, is in charge at headquarters. Mr. John P. Branch, the nestor of Richmond bankers, was here yesterday. It is expected that the trains to-morrow will bring a number of bankers from Virginia and North Carolina.

Attention was called to-day to the fact that two of the new banks of Washington banks, and its doors of the Mashington banks, and its doors of the Washington banks, and its doors of the mew bank will demonstrate that there is something in a name when applied to pank.

Girlhood, Womanhood, Motherhood

The first lesson that the young girl has of womanhood is usually a painful one. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life.

All the pain and misery which young girls commonly experience at such a time may, in almost every instance, be entirely prevented or cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness, chorea, or St. Vitus's dance, and other consequences of womanly weakness or disease.

MOTHER OF THE FAMILY.

MOTHER OF THE FAMILY.

MOTHER OF THE FAMILY.

The anxious mother of the family oftentimes carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys are concerned. The cost of the doctor's visits are very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held sacredly confidential.

IT STANDS ALONE.

IT STANDS ALONE.

"Favorite Prescription" is the only medicine for women the makers of which are not afraid to print just what it is made of on every bottle wrapper. It is the only medicine for women every ingredient of which has the unanimous endorsement of all the leading medical writers of this country, recommending it for the cure of the very same diseases for which this "Prescription" is advised.

A MOTIGER'S LOYE.

A MOTHER'S LOVE.

A MOTHER'S LOVE.

A mother's love is so divine that the roughest man cannot help but appreciate it as the crown of womanhood. However, motherhood is often looked forward to with feelings of great dread by most women. At such times a woman is nervous, dyspeptic, irritable, and she is in need of a uterine tonic and nervine, a strength builder to fit her for the ordeal. No matter how healthy or strong a woman may be she cannot but be benefited by taking Dr. Pierce's Favorite Prescription to prepare for the event. It makes childbirth easy and often almost painless.

DR. PIERCE'S FAVORITE PRESCRIPTION

DR. PIERCE'S FAVORITE PRESCRIPTION DR. PIERCE'S FAVORITE PRESCRIPTION is a powerful, invigorating tonic. It imparts strength to the whole system, and to the womb and its appendages in particular. For overworked "wornout," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boog, being unequaled as an appertizing cordial and restorative tonic.

A STRENGTHENING NERVINE.

A STRENOTHENING NERVINE.

"Favorite Prescription" is unequaled and is invaluable in allaying and subdiring nervous excitability, irritability, nervous exhaustion, prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic discase of the womb. It induces refreshing sleep and relieves mental anxiety and despondency. and despondency.

A SCIENTIFIC MEDICINE. Dr. Pierce's Favorite Prescription is stamps for the book in paper covers.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

HOW TO LOOK BEAUTIFUL.

Young women or matrons should not allow themselves to look sallow and wrinkled because of those pains and weaknesses which become chronic and are the result of colds, tight lacing, and the imprudent care of the womanly system. Many a woman would look beautiful, have healthy color and bright eyes if it were not for those drains on her strength and those weaknesses which come all too frequently and make her life miscrable. There is a ready-to-use Prescription, used a great many years by Dr. R. V. Pierce in his large practice as a Specialist in women's diseases, which is not like the many "patent medicines" on the market, as it contains neither alcohol nor any narcotic, or other harmful drug. It is purely vegetable. It is known as Dr. Pierce's Favorite Prescription and is sold by druggists.

DR. PIEROE'S PLEASANT PELLETS

cure biliousness, sick and bilious head-

cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach,
windy belchings, "heartburn," pain
and distress after cating, and kindredderangements of the liver, stomach
and bowels.

Persons subjected to any of these
troubles should never be without a vial
of the "Pleasant Pellets" at hand. In
proof of their superior excellence it can
truthfully be said that they are always
adopted as a household remedy after
the first trial.

One little "Pellet" is a laxative, two
are cathartic. They regulate, invigorate and cleanse the liver, stomach and
bowels. As a "dinner pill," to promote
digestion, take one each day. To relieve the distress arising from overcetting, nothing equals one of these
little "Pellets." They're tiny, sugarcoated, anti-bilious granules, scarcely
larger than mustard seeds.

HEALTH AND HAPPINESS.

HEALTH AND HAPPINESS.

Health and happiness, is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent from on receipt of stamps to pav capense of mailing only. Send 31 ca.—cent stamps for the cloth-bound volume, or only 21 terms for the book in pages covers.
